**MEMORANDUM FOR THE RECORD**

**SUBJECT: Visit of Colonel Renka of 6901st to USAFE**

25X9A8 1. [REDACTED] informed me this morning that a message has come in from Colonel Renka referring to his instruction to not release the DMR to USAFE in accordance with previous procedure, that he is expected to make a TDY visit to USAFE and expects to run into a hornet's nest from USAFE because of their being cutoff.

25X1A9a 2. After conferring with [REDACTED] who agreed to the following procedure, I took the following actions:

a. I requested Colonel Stewart of AFCIN to inform Colonel Rogers, USAFE, of Colonel Renka's upcoming visit, the fact that Colonel Renka is unwitting of the R development and does not know why he was instructed to cutoff the DMR to USAFE, and that he, Colonel Rogers, should insure that his own subordinates do not give Colonel Renka a bad time for having cutoff the DMR.

25X9A8 b. I have informed [REDACTED] of paragraph a above and requested him to go back to Renka answering the incoming to the effect that he, Renka, may proceed to USAFE without fear of static from USAFE.
